 www.kolojic.com

Kolojic collaborates with carefully selected technology partners to offer products that are technically validated, application-ready, and aligned with global market requirements.

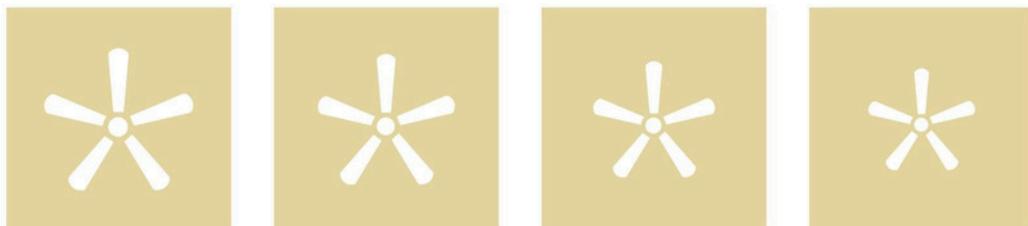

- **VoiceFirst™** Smart Control System This product works with voice control systems like Tmall Genie and Xiaoai, and can be controlled remotely via a mobile app. Users can easily adjust speed, light color, and brightness with one click for a seamless experience.
 - **EcoCore™** Energy Optimization- High-efficiency LEDs and low-energy motors cut energy use by 40%, complying with green building standards.
 - **AeroDesign™** Advanced Structural Engineering (ASE)- The streamlined fan blade design is offered in several styles, including metal and wood, making it applicable for contemporary home and commercial environments.
 - **SilentDrive™** DC Motor Technology - Utilizing advanced motor technology, this system operates quietly while providing robust airflow, ensuring a serene and comfortable environment.
-

1 Recommended Ceiling Fan Sizes for Space

Ceiling fans, commonly known as decorative ceiling fans, are particularly popular in European and American. These fixtures beautifully combine lighting, ceiling fan, and aesthetic appeal. When selecting a ceiling fan, decorative harmony should be your primary consideration.

The ideal fan size should complement three key elements: your room dimensions, existing decor style, and spatial arrangement. Please also note that ceiling fan sizes refer to the diameter of the circle created by the rotating blades. Remember, choosing the right fan isn't about maximizing airflow coverage - it's about achieving visual balance. For dining rooms and bedrooms, moderate-sized fans work best, while living spaces typically benefit from larger models that make a stronger design statement.

Recommended Ceiling Fan Sizes for Room Dimensions (For reference only)

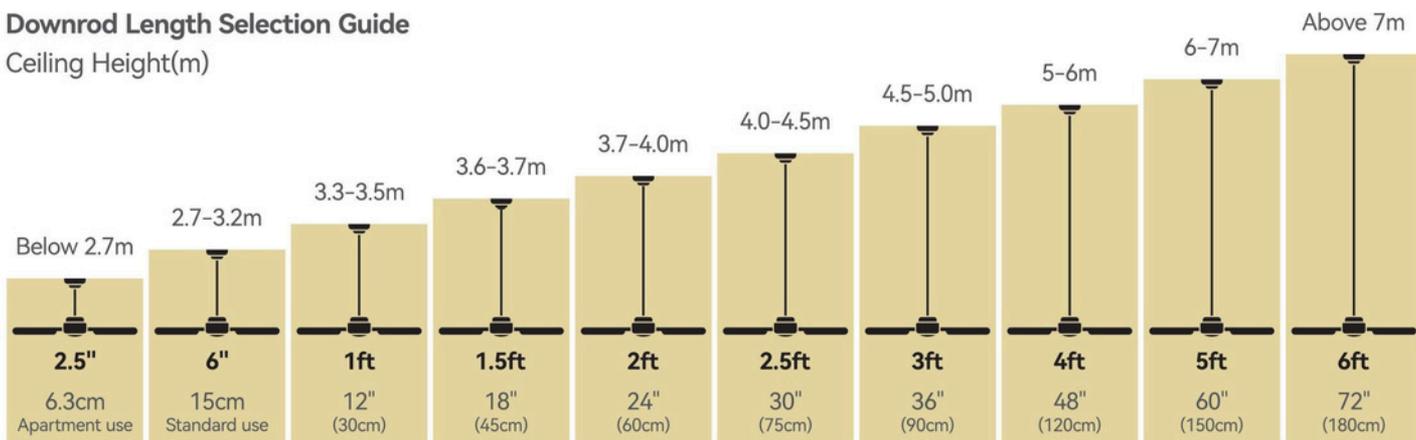

Ceiling Fan Sizes (DIA)	42 inches (106cm) or less	48 inches (120cm)	52 inches (130cm)	56 inches (140cm)
Recommended Room Size	6-10m ²	8-16m ²	12-20m ²	18-26m ²

2 Ceiling Height

For rooms with low ceilings, hugger/low-profile ceiling fans are recommended. To optimize airflow performance, select the appropriate downrod length based on your ceiling height as shown in the diagram below.

Downrod Length Selection Guide

Ceiling Height(m)

FASTER COOLING POWER

Fast Cooling

Cools rooms in minutes
for instant relief.

Instant Response

Take effect instantly—no waiting,
no frustration.

Quick Installation

Designed for one
-person installation
—ready to use in minutes.

SMARTER FAN CONTROL

Voice Control

"Set to speed 3" or other commands—just speak and it's done.

Remote Control

Adjust settings anytime from your phone or remote—even when you're away.

Auto Mode

Smartly adjusts fan speed for sleep, energy-saving, and more—no manual tweaking needed.

ENERGY-SAVING ECOER

INNOVATIONS

Ultra-Low Power Usage

Runs on low power
—saves energy without
sacrificing performance.

100% Eco-Friendly

No refrigerants or
toxins—clean cooling
for you and the planet.

High Durability

Energy-smart design
extends lifespan, reducing
waste and cost.
